

David F. Schaible Memorial Grant

Read about the Newfield Foundation in the news with the David F. Schaible Memorial Grant. This special \$25,000 donation went to the Utah Wildlife and Conservation, a non-profit organization, created to ensure the future of native Utah wildlife by supporting critically needed research and conservation. The grant will help increase the native hawk population in areas that include Newfield's Monument Butte field. Newfield representatives included Eric Sundberg, regulatory analyst, and Candice Twitty, operations technician, of the Regulatory Group from Denver office, who were invited by the organization to participate in a special banding of young birds in the field on June 16.
